*Chief Clerk* Mrs J. Thorlby (resigned 31.3.68)  
Mrs P. Mabbott (nee Parsons)  
Miss S. Hesslewood (commenced  
8.4.68, resigned 23.8.68)

*Public Health Inspector's Dept:*

*Chief Clerk* Mr S. E. Watson (part-time)  
Miss M. Trout (resigned 17.1.68)  
(part-time)  
Miss S. Macham (commenced 1.3.68  
part-time)

PUBLIC HEALTH DEPARTMENT  
CHANCERY LANE  
RETFORD  
TELEPHONE RETFORD 2561

September 1969

TO THE CHAIRMAN AND MEMBERS OF THE  
EAST RETFORD RURAL DISTRICT COUNCIL:

Mr Chairman, Ladies and Gentlemen,

The 1968 mid-year population of the Rural District is 23,860, which is 120 less than last year. The number of births in 1968 is 416, an increase over last year of 19. The natural increase of births over deaths is 209.

The number of deaths is 207, 17 less than in 1967.

Infant deaths are seven.

There were no maternal deaths.

The notified cases of measles was 241. The measles rate has remained fairly high for four years. In the three years, 1965-1967, the figures were 423, 238 and 245 respectively. The campaign for vaccination against measles begun in the spring of 1968 does not seem to have modified the rate as yet.

### **Gamston Airfield**

The East Retford Rural District Council has been designated as the "Responsible Authority" for health control functions at this airfield. The usual operation and extent and range of flight of the aircraft makes it likely that the commanders of the aircraft need not, under Section 26 of the Regulations, comply with much of the Regulations, except under certain circumstances described in that Section, namely that the Ministry of Health has directed or the Medical Officer is satisfied that the powers and duties should be imposed because of danger to public health.

### **Sewerage and Sewage Disposal**

The following report has kindly been given to me by Mr Roberts.

At the beginning of 1968 the Council had the greatest amount of work in progress for the provision of sewerage and sewage disposal facilities that it had ever had in its history, which was indicative of the Council's wish to provide modern drainage amenities to the villages in the Rural District as quickly as it was able to do so.

The Lound, Sutton and Barnby Moor Schemes, which provided for sewers in each village, six sewage pumping stations at various points in these villages, and a sewage disposal works to the north-east of Lound village was about 87% completed. Lound Sewage Disposal Works was operating although not all house drains on the route of the sewer had been connected to the sewer. However, by June the contract was complete apart from some minor plumbing work and the final reinstatement of certain roads.

The most extensive and also the most expensive scheme the Council has undertaken, catering for the villages of Treswell, Rampton, Laneham, Dunham-on-Trent, Ragnall, Darlton and East Drayton had been commenced in mid 1967 and at the end of that year was a little over a quarter complete. During the whole of 1968 work has continued on this contract reasonably quickly when one takes into consideration the excessive rain experienced, and bad going in certain places, particularly at Dunham-on-Trent, and by the end of the year nearly threequarters of the work had been completed. In addition to sewerage the villages concerned, the final scheme envisages a Sewage Disposal Works south of Rampton and eight Sewage Pumping Stations in various parts of the catchment area.

Two smaller schemes were in their early stages at the beginning of the year; the one at Ranby, where the Council had agreed to take over the Disposal Works at Ranby Camp and to sewer the hamlet of Ranby had been commenced in November 1967, although there was only a small amount of sewer laying to be done, it was necessary to construct three pumping stations because of adverse levels. Reasonable progress was made with this work, and in September the Council let a contract for the provision of house connection drains; this work was commenced before the end of the year.

The other smaller scheme at Finningley was commenced in December 1967 and by the end of 1968 the contract was approaching completion. This scheme provides for the sewerage of Finningley village, the acceptance of a small flow from Blaxton in Doncaster Rural District, and the construction of two sewage pumping stations in the village and a sewage disposal works sited at Croft Lane to the east of Finningley.

During the first week in January, a Ministry Investigation was held into the Council's proposals to take over the Sewage Disposal Works at the Central Electricity Generating Board's West Burton Power Station, and to provide sewers at Bole, Sturton-le-Steeple and Fenton from whence sewage would be pumped to West Burton. In addition the scheme provided for sewage from North and South Leverton to be pumped to West Burton, this latter part of the proposals was extremely urgent in view of the pressure being exerted by the Trent River Authority on the Local Planning Authority to refuse planning permission for any further development in the Levertons because the existing Sewage Disposal Works was overloaded and not able to produce a satisfactory effluent. The

Ministry accepted the Council's evidence on the urgency and practicality of the scheme and in May authorised the invitation of tenders for the proposed work. In September the Council received ten tenders for the construction of 5,000 yards of gravity sewers, 6,700 yards of pumping sewers, and the construction of four new sewage pumping stations with modifications to the two existing stations at North and South Leverton and (subject to Ministry agreement) accepted the tender of H. O. Andrews Ltd in the sum of £112,800. This tender envisaged the sewer-laying being carried out by the Yates Badger method, and prior to acceptance of the tender Members of the Public Health and Planning Committee visited Burringham and inspected work being carried out by this system.

Preparation work has continued on the schemes for Gringley-on-the-Hill, Clayworth, Scrooby and Misson which are included in the Council's programme to be completed by 1975, and it is hoped that considerable progress will be made towards obtaining the Ministry's approval to these schemes in 1969, although at the end of the year the Council appeared to be fully committed from a financial standpoint with the schemes upon which work was in hand.

Reviewing the existing schemes reveals something of a mixed bag; the Elkesley, Ranskill and North Wheatley Disposal Works consistently produce effluents which are better than the Trent River Authority requirement, i.e. Royal Commission Standards, and should be able to cater for any development in their respective areas within the foreseeable future. At Lound, after the initial "running-in" period, samples have indicated that the final effluent is satisfactory and it is anticipated that this standard will be maintained. The East Markham Works, despite the periodic influx of surface water and some farm effluent from the village of East Markham, has given fairly good effluent results although both B.O.D. and suspended solids counts are somewhat higher than Royal Commission Standards recommend. The continuation of housing development at Tuxford will, without doubt, put an additional load on this works and it will shortly be necessary to consider making provision for dealing with this additional load. With regard to the North Leverton Works it has been noticeable that, since the excessive flow from the poultry premises has been drastically reduced, the quality of the final effluent has greatly improved, however, the extensive housing development – both Council and Private Enterprise – taking place at North Leverton will, it is expected, result in an increased flow which will overload the works, and this state of affairs will continue until the West Burton Scheme has been completed. The Mattersey Thorpe Works as I have said in previous reports, is not producing a satisfactory effluent and it would appear that little improvement is likely to be achieved until the works are altered when the Scrooby Sewerage Scheme is carried out. The partial treatment works at Walkeringham from which the effluent is discharged into the tidal reaches of the River Trent has no effluent standard set out by the Trent River Authority, but I am confident that

the development of Misterton, Walkeringham and Beckingham will soon produce a flow in excess of the design capacity and as it becomes necessary to increase the capacity of the works it will also become necessary to provide full treatment of the sewage so as to achieve a consistent Royal Commission Standard effluent. During the year flooding of the sewers on to private gardens has occurred in the Marsh Lane area of Misterton, due to the excessive amount of surface water which infiltrates into the manholes in wet times; some remedial work has been attempted to render the defective manholes water-tight but this has not been successful and further works are needed to these manholes to prevent the infiltration of surface water. The results from the Hayton Works have been very inconsistent – some satisfactory and some unsatisfactory – again, I think that surface water infiltration is one of the main causes of poor analysis results, and the Consulting Engineers have been asked to investigate this problem.

Looking to the Council's programme, it is, I feel, pleasing to note the progress which has been made, but a great deal of work is still to be done. The schemes in Group 2 for Gringley-on-the-Hill, Clayworth, Scrooby and Misson are in various stages of preparation, and I think it is essential if the Council is to meet its future programme, for consideration to the Group 3 of villages so that preparation work may be commenced on them as soon as those in Group 2 are "off the ground". The villages in Group 3 are West Stockwith together with the Canal Lane area of Misterton, Normanton-on-Trent, Bothamsall, Gamston and Askham, and the approved programme envisages the Group 3 villages being provided with mains drainage by 1978.

. . . . .

In conclusion, I wish to thank you for your support during the year, and for the help and co-operation of Dr Birks, and the Rural District Officers and Staff.

I am,

Your obedient servant,

G. TATTERSALL,

*Medical Officer of Health*

PREVALENCE & CONTROL OF INFECTIOUS DISEASES

The following diseases are notifiable to the Medical Officer of Health:

Acute Encephalitis	Measles
Acute Meningitis	Ophthalmia Neonatorum
Acute Poliomyelitis	Paratyphoid Fever
Anthrax	Plague
Cholera	Relapsing Fever
Diphtheria	Scarlet Fever
Dysentery	Smallpox
Food Poisoning or suspected	Tetanus
Food Poisoning	Tuberculosis
Infective Jaundice	Typhoid Fever
Leprosy	Typhus
Leptospirosis	Whooping Cough
Malaria	Yellow Fever

The number of infectious diseases (excluding Tuberculosis) notified during 1968 was 288. Details of these are as follows:

<i>Diseases</i>	<i>No of Cases</i>
Dysentery .. .. .	12
Food Poisoning .. .. .	1
Infective Jaundice .. .. .	1
Measles .. .. .	241
Pneumonia .. .. .	19
Salmonella Infection .. .. .	7
Scarlet Fever .. .. .	5
Whooping Cough .. .. .	2

Tables showing various details about notifiable infectious diseases during 1968 are given on pages 12 and 13.

Tuberculosis

There were 11 cases of Tuberculosis notified during the year, of these 9 were primary notifications, i.e. related to persons who had not previously been notified in the area of any authority, and 2 were non-primary notification, being transfers from other areas.

A table giving details of new cases and deaths from Tuberculosis is given on page 14.

## Protection against Tuberculosis

A scheme for the protection of adolescents against Tuberculosis has been in progress since 1957.

This scheme involves the skin testing and B.C.G. Vaccination of all children of secondary school age, and of students.

The work is organised by the District Medical Officer of Health as agent for the County Council.

The figures for 1968 are given below.

No. of children offered vaccination..	..	..	401
No. of children whose parents accepted	..	..	373
Rate of acceptance	..	..	93.01
No. of children skin-tested	..	..	347
No. found to be positive and referred for X-ray	..		47
No. found to be negative	..	..	291
No. of children vaccinated	..	..	288
No. re-tested after previous vaccination	..	..	4
No. re-vaccinated	..	..	2

## SERVICES PROVIDED BY OTHER AUTHORITIES

### NATIONAL HEALTH SERVICE

#### [a] Hospital and Specialist Services [Part II National Health Service Act, 1946]

The Sheffield Regional Hospital Board is responsible for the hospitals serving East Retford Borough and Rural Districts through a Hospital Management Committee. There are four hospitals:

Victoria Hospital, Worksop  
Kilton Hospital, Worksop  
Carlton Hospital, near Worksop  
Retford and District Hospital, Retford

The Worksop and Retford Hospital Management Committee carries out the day-to-day administration of these hospitals.

#### [b] Health Services provided by Local Health Authorities

The Nottinghamshire County Council provides the following services under Part III of the National Health Service Act 1946 (Dr H.I. Lockett, County Medical Officer and Principal School Medical Officer).

- 1 Care of mothers and young children.
- 2 Domiciliary Midwifery.

#### *Care of Mothers and Young Children*

(a) There are eight villages in which Antenatal and Child Welfare Clinics are held. A list of these clinics can be seen on page 20. The Medical Officer of Health attends some of these clinics.

The Maternity and Child Welfare Centre at the Notts County Council Clinic and Offices, Chancery Lane, Retford, is available to those parents living in nearby villages.

#### (b) *Cervical Cytology*

A Cervical Cytology Clinic is held at the County Council Health Centre, Chancery Lane, Retford. All women are invited to attend. This clinic, which takes place every other Wednesday afternoon, from 2.00 to 4.00 p.m., is intended to provide early diagnosis of cervical cancer, and is therefore a most important preventative measure.

I give below numbers of attendances for 1968:

Borough	Rural	Other parts	Total
483	350	122	955

The Doctor in attendance is also available for Antenatal purposes.

### *Domiciliary Midwifery*

Mothers may have their babies at home or in hospital, this depending on various factors, medical and social. If the mother has her baby at home, then she is attended by a midwife who will call in a doctor if required, this usually being the family doctor.

### *Home Nursing*

This is a service which provides for the nursing at home of chronic patients, and of less serious forms of acute illness where the family doctor requests it. It is carried out by the Retford and District Nursing Association.

### *Health Visiting*

Health Visitors are State Registered Nurses with knowledge of midwifery, who have attended a whole-time course in Public Health work and received the Health Visitor's Certificate. Their duties are in respect of the Personal Health Services. They work in the Maternity and Child Welfare Clinics and do routine visiting of their districts, advising on prevention of illness and maintenance of health.

### *Vaccination and Immunisation*

The Vaccination and Immunisation Service is administered for the County Council by the District Medical Officer of Health, acting as the agent for the County Council.

### *Ambulance Service*

The main Ambulance Station is situated in the Retford Borough and the vehicles comprise four ambulances and three dual-purpose vehicles which will carry either sitting cases or stretcher cases.

The Station Supervisor has his office at North Road, Retford; telephone Retford 2303.

### *Home Help*

This office is situated in the Nottinghamshire County Council Clinic and Offices, Chancery Lane, Retford. This most useful service provides domestic help where, on account of illness, age or other domestic reasons, it is required. The Home Help Supervisor is Miss Turner, telephone Retford 2681.

**[c] Provision of General Medical and Dental Services, Pharmaceutical Services and Supplementary Ophthalmic Services  
[Part IV National Health Service Act 1946]**

**THE SCHOOL HEALTH SERVICE**

The School Health Service (known as the School Medical Service until 1945) started officially in 1908, but its growth was greatly increased by the Education Act of 1944 and the National Health Service Act of 1946.

The County Council as the Local Education Authority is responsible for the School Health Service.

**NATIONAL ASSISTANCE ACT, 1948**

The County Council provides a welfare service for the aged and handicapped persons. The Welfare Office is at 3 Overend Road, Worksop; telephone Worksop 2600.

**MENTAL HEALTH ACT, 1959**

The County Council provides a welfare service for the mentally handicapped. The District Officer for this purpose is Mr Wynne, who has a call-office at the County Health Centre, Chancery Lane, Retford, by appointment. The Mental Health Office is at the County Health Clinic, Carlton Road, Worksop; telephone Worksop 4337.

## **INSPECTION AND SUPERVISION OF FOOD AND FOOD PREMISES**

### **Food and Drugs Act, 1955**

Details of work carried out by the Public Health Department during the year are given in the Report of the Chief Public Health Inspector.

The Food and Drugs Act, 1955, provides for the sampling of food and drugs for analysis or for bacteriological examinations. The Notts County Council is the authority responsible for these duties, and I am grateful to Mr Gregory, Chief Inspector, Food and Drugs, for a report of the Public Analyst upon articles analysed during the year.

### **FACTORIES ACT, 1961**

The tables on pages 22 and 23 give a summary of the work with respect to matters under Part I and Part VIII of the Factories Act, 1961.

### **NATIONAL ASSISTANCE ACT [1948] AND NATIONAL ASSISTANCE [AMENDMENT] ACT, 1951**

These Acts provide for the removal to suitable premises of persons in need of care and attention. No action was necessary under the Acts during the year though assistance in getting persons into hospital on a voluntary basis was given.

**FACTORIES ACT, 1961**

**Part 1 of the Act**

1 — INSPECTIONS for the purposes of provisions as to health.  
(including inspections made by the Public Health Inspectors)

Premises (1)	Number on Register (2)	No. of Inspections (3)	No. of Written Notices (4)	No. of Occupiers prosecuted (5)

## ANNUAL REPORT 1968

Dear Dr Tattersall,

I beg to submit this my eighth annual report for the year 1968. It was a year of routine work in the main, although two court actions were taken by the Council, one for contraventions against the Food Hygiene Regulations and the other for contraventions of Section 1 of the Caravan Sites and Control of Development Act.

Re-housing from slum-clearance properties was down once again, nine as against ten in 1967, fourteen in 1966 and twenty-four in 1965; and, as expected, the number of houses still occupied with confirmed demolition orders on them topped the three-figure mark (113).

My thanks are once again due to your good self for continued guidance and help during the year, and to my colleagues on the staff of the East Retford Rural District Council for help and assistance in all matters.

Yours sincerely,

F. E. STORR

*Chief Public Health Inspector*

## WATER SAMPLES

The water supply of the area and its several parts has on the whole been satisfactory in quality and quantity.

Regular sampling of water was undertaken as follows:

## BACTERIOLOGICAL EXAMINATION

<i>No. of Samples Taken</i>	<i>Mains Supply</i>	<i>Private Supply</i>
47	47	Nil
Satisfactory	47	Nil
Unsatisfactory	Nil	Nil

The forty-seven samples taken from mains supply were from twenty-eight parishes.

No sample was taken for chemical analysis during the year.

There are no public standpipes in the Rural District, and the following tables give an estimation of houses and populations supplied or not from the public water supply.

1	Estimated population of East Retford Rural District	25946
2	Estimated number of dwellinghouses	7870
3	Estimated number of houses and population already supplied with piped water supply:	
	Number of houses	7740
	Population	25432
4	Estimated number of houses and population not at present supplied with piped water supply:	
	Number of houses	130
	Population	514

## PUBLIC CLEANSING

Refuse disposal and collection continued during the year much the same as in previous years, with a seven working day collection from the back door being the aim. Delays occurred at times of holidays, sickness and mechanical breakdowns, followed by the inevitable deluge of complaints.

Staff continues to provide some difficulties, and in all twenty-seven men were employed at some time or other during the year to fill an establishment of seventeen men. Four hundred and twenty days were lost either through ill-health or absenteeism.

This Authority continued to act as agents of the County Council in the collection of litter from lay-bys on a re-chargeable basis. At the end of the year, 1,111 single bins at 6/- and 667 double bins at 9/- had been emptied.

Continued co-operation between the local Police, the Highways Department of the Nottinghamshire County Council, a local scrap

dealer and this Council enabled the system for the removal of abandoned cars to work smoothly. During the year ten abandoned cars were removed from the highways and disposed of.

Bulky and/or excess refuse was collected on request whenever possible, or alternatively tipping facilities were provided.

The Garage Sub-Committee inspected the vehicles during the year and I am sure the men appreciate such inspections, and feel that their efforts to clean and maintain the vehicles regularly do not go unnoticed.

Two pilot schemes using paper sacks as containers were in use during the year. One scheme involved 71 houses built at North Leverton for the Central Electricity Generating Board with an all-electric concept, the other at Tuxford for the National Coal Board involved 112 houses occupied by displaced miners with their concessionary coal allowances. Two contrasting schemes, which showed satisfactory results from an early stage with few teething difficulties. The co-operation of the tenants has on the whole been good throughout.

The refuse from the two lots of houses was easily collected in a day by two men, a big improvement over the skip system used elsewhere in the District.

## **INFECTIOUS DISEASES**

All houses at which cases of notifiable infectious diseases requiring investigation have been visited and advice re disinfection given in appropriate cases.

The number of visits and re-visits (103) necessary in connection with this work was up on last year (67). No major outbreaks occurred during the year.

## **CLEAN AIR — SMOKE ABATEMENT**

The ring of volumetric control stations and deposit gauges designed and so placed to monitor fall-out from all three power stations remained operational throughout the year, and results from them were forthcoming via the good offices of the County Health Inspector.

The situation of these control stations and deposit gauges, along with those operated by local authorities were given three years ago. They are so dispersed as to give a good idea of fall-out over a wide area and covering all points of the compass. In addition to SO<sub>2</sub> and grit fall-out figures, the Central Electricity Generating Board also supply charts giving wind directions and velocity day by day.

Comparison figures with Staythorpe and Radcliffe Power Stations were also provided and would tend to show that results from the three power stations in this District are favourable and satisfactory by comparison.

**POULTRY INSPECTION**

There are two poultry dressing and packing plants in the District, one at Misterton, the other at East Markham.

Numbers of poultry vary according to season but on average the following is the normal output:

Misterton 800-1,000 per week; East Markham 2,000-2,200 per week. Rejects and/or condemned birds also vary according to supply source, but average 0.5-0.75%.

Regular visits were made to these premises, particularly that at Mister-ton which required constant supervision. A report was finally made to the Health Committee of the Council and proceedings for contraven-tions of the Food Hygiene Regulations as listed hereunder were author-ised.

Regulations 5, 6, 8, 16 (i), 18, 19 (a), 23 (i) and 24.

The case was duly heard at the Retford Magistrates' Court on the 11th January 1968.

The owner pleaded guilty to contravention of Regulations 5, 6, 8, 18 and 23, and was fined £10 on each charge, a total of £50 plus £15.15.0. costs.

Charges brought for contraventions against Regulations 16, 19(a) and 24 were dismissed.

Constant supervision is still necessary to keep these premises in order, the occupier does not seem to have much idea of food hygiene and clean food handling.

**HOUSING**

Inspections, etc, were carried out under the Housing Acts for the following purposes:

1	Repair and demolition of houses .....	385
2	Improvement Grant .....	35
3	Application for Council Houses .....	7
4	Interview with Owners other than at Office .....	53
5	Inspections in connection with Certificates of Disrepair ....	—

**Housing Act 1957 — Section 9**

Number of houses dealt with formally under Section 9 .....	—
Number of houses dealt with by informal action .....	9

**Housing Act 1957 — Section 16**

The work of slum clearance continued during the year, but the end of the year found us behind our target of dealing with 981 houses in 12-14 years from 1955.

A general review of the picture shows re-housing to be far too slow, by the end of the year 113 houses with confirmed Demolition Orders on them were still occupied and indeed some of them have been for a number of years.

A further picture emerging from the review shows the vast majority of the slum-clearance properties to be occupied by elderly people or problem families. The demand for one- and two-bedroom bungalows is still great.

1	No. of dwellings represented prior to 1st January 1968 upon which no formal action had been concluded .....	9
2	No. of Demolition Orders made in respect of dwellings included in (1) above.....	8
3	No. of Undertakings to reconstruct accepted in respect of dwellings included in (1) above .....	—
4	No. of Undertakings included in (3) above complied with — (conversion of two dwellings into one) .....	—
5	No. of Undertakings not to use for human habitation accepted in respect of dwellings included in (1) above .....	—
6	No. of dwellings included in (1) above which the Council are negotiating to purchase .....	—
7	No. of dwellings included in (1) above which formal action has not been concluded .....	1
8	No. of dwellings represented as unfit to Council between 1st January 1968 and 31st December 1968 .....	23
9	No. of Demolition Orders made in respect of dwellings included in (8) above .....	19
10	No. of Undertakings to reconstruct accepted in respect of dwellings included in (8) above .....	3
11	No. of Undertakings not to use for human habitation accepted in respect of dwellings included in (8) above .....	—
12	No. of dwellings included in (8) above which the Council are negotiating to purchase .....	—
13	No. of dwellings included in (8) above upon which consideration has been deferred .....	1
14	No. of houses demolished as a result of Demolition Orders and representations .....	11

**Slum Clearance Summary**

**Estimated Number of Unfit Dwellings**

**Proposals submitted to Minister in 1955**

No. of unfit houses to be dealt with .....	981; 205 first 5 years
Period of time .....	12-14 years

## No. of houses already dealt with up to December 1968

	<i>Confirmed</i>	<i>Awaiting Confirmation</i>
(a) As Clearance Areas . . . . .	Nil	Nil
(b) As individual unfit houses . . . . .	471	Nil

## Number of houses remaining to be dealt with

399 less 4 voluntarily reconstructed during the year with assistance of Improvement Grants . . . . .	395
No. of houses still occupied with confirmed Demolition Orders . .	113
No. of families re-housed during 1968 from Slum-Clearance properties (one less than in 1967) . . . . .	9

## DISCRETIONARY GRANTS

1 No. of applications for Grants received . . . . .	36
2 No. of applications approved on original submission . . . . .	22
3 No. of applications rejected . . . . .	3
4 No. of applications referred for revision . . . . .	6
5 No. of applications approved after re-submission extra to (2) above . . . . .	5
6 Total value of Grants approved . . . . .	£8,327. 0. 0. (£12,368. 10. 0. in 1967)
7 Average Grant per dwelling . . . . .	£308. 0. 8. (£317. 2s. 9d. in 1967)
8 No. of schemes certified complete . . . . .	24
9 Average Grant in respect of schemes completed . .	£314. 12. 1. (£322. 3s. 0d. in 1967)

Of the 27 grants approved during the year, 8 (29.63%) were in respect of dwellings which were let or intended to be let.

Of the 24 schemes which were certified as complete during the year 9 (37.50%) were in respect of dwellings which were let or intended to be let.

## STANDARD GRANTS

1 No. of applications for grant received . . . . .	58
2 No. of applications approved . . . . .	47
3 No. of applications rejected . . . . .	7
4 No. of applications referred back for revision . . . . .	4
5 No. of schemes certified complete . . . . .	38
6 Average grant in respect of schemes completed in (5) above . . . . .	£112. 6. 11. (£124. 7s. 3d. in 1967)

Of the 47 grants approved during the year, 15 (31.91%) were in respect of dwellings which were let or intended to be let.

Of the 38 schemes which were completed during the year, 14 (36.84 per cent) were in respect of dwellings which were let or intended to be let.

### **Housing [Financial Provisions] Act**

No applications for subsidy in respect of agricultural workers' dwellings has been approved. Three applications for loan to build new houses or acquire existing houses were also approved.

### **The Caravan Sites and Control of Development Act 1960**

The Council had up to the end of the year issued the following licences subject to compliance with the required standards:

Permanent residential:	16 providing accommodation for 292 caravans
Holiday:	4 providing accommodation for 225 caravans
Individual:	59

Licensed sites are for the most part well maintained and kept in good order by the respective licensees. One site, sub-standard to the others, houses a number of families, who are not in themselves all they might be. The condition of the site continues to cause concern to this Department, and the conditions of the occupiers concern to the Health Visitor, and various Welfare Departments. No doubt consideration will have to be given to enforcement action in the near future unless things improve.

Gypsies and other itinerant travellers come into the District occasionally, leaving behind them the usual mess to be cleaned up. On the whole, however, the problem is only a minor one to date. It may be that some time in the future a site will have to be provided onto which this class of caravan-dweller can be directed.

During the year a large party of itinerant travellers came into the District and parked in a field at Eaton. In spite of repeated requests to the site owner no effort was made to move, so that eventually enforcement action under Section 1 of the Act was taken against the owner of the land.

The case was heard on the 22nd August 1968, at the Retford Magistrates' Court, and found proved, a fine of £75 imposed plus £10.10s.0d. costs. Needless to say, the travellers were soon on the move.

Prevention of Damage by Pests Act 1949

	<i>Types of property</i>	
	<i>Non-agricultural</i>	<i>Agricultural</i>
1 Number of Properties in the District	7479	680
2 (a) Total number of properties (including nearby farms) inspected following notifications . . . . .	96	—
(b) Number infested by (i) rats . . . . .	72	—
(ii) mice . . . . .	13	—
3 Total number of properties inspected for rats and/or mice for reasons other than notification . . . . .	10	—
Number infested by (i) rats . . . . .	10	—
(ii) mice . . . . .	—	—

Test baiting of sewers was carried out during March-April, and apart from one short length at Tuxford were found to be clear. The sewers at Tuxford were baited and quickly cleared of infestation.

FOOD HYGIENE REGULATIONS

The following is a summary of the various food premises in the Rural District.

Grocers and General Shops . . . . .	80
Bakehouses . . . . .	1
Butchers . . . . .	14
Fried Fish and Chips . . . . .	7
Greengrocers and Fruiterers . . . . .	4
Sweets and Minerals, etc. . . . .	11
Ice-cream Roundsmen . . . . .	1
Private Hotels, Guest Houses . . . . .	2
Clubs and Institutes . . . . .	4
Cafes, Tearooms . . . . .	7
Works Canteens . . . . .	10
H.M. Canteens . . . . .	1
School Meals Service . . . . .	24
Private Schools . . . . .	3
Hotels, Public Houses, Inns . . . . .	72
	<hr/>
	241

Of these premises 80 were registered for the retail sale of wrapped ice-cream.

171 inspections and/or re-inspections were made of food premises.

The following table summarises the progress with this work and also indicates an overall picture of the improvements affected:

<b>Informal Notices requiring attention to:</b>	<i>Outstanding from last year</i>	<i>Served during year</i>	<i>Complied with</i>

## STATUTORY NOTICES SERVED/MAJOR NUISANCES DURING YEAR

### Public Health Act 1961 — Section 27 — January

Dilapidated buildings at Misterton. Part demolished and tidied up. Still not satisfactory, but complies with requirements of Act.

Site of former cottage at East Markham — site cleared and tidied up.

### Public Health Act 1936 — Section 50 — February

Defective overflow drain discharging into highway at Bole — nuisance remedied.

### Public Health Act 1936 — Section 83/287 — February

Filthy or unwholesome premises — Sturton-le-Steeple. Inspection and entry with Magistrates' warrant — occupiers vacated premises which were afterwards cleaned up.

**Public Health Act 1936 — Section 58 — February**

Dangerous building – South Wheatley – made safe by owner.

**Public Health Act 1936 — Section 27 — March**

Dilapidated and collapsed building – Laneham – site cleared – tidied up by owner.

**Public Health Act 1936 — Section 92/93 — April**

Accumulation of pig manure – North Wheatley – accumulation cleared and site kept clear by owner/occupier.

**Public Health Act 1936 — Section 92/93 — September**

Housing repairs and nuisances – Elkesley – repairs carried out and nuisances abated.

**SANITARY & HOUSING REPAIRS AND IMPROVEMENTS**

Catering establishments . . . . .	38	68	106
Canteens . . . . .	1	7	8
Fuel storage depots..	—	—	—
<b>Total</b>	<b>83</b>	<b>161</b>	<b>244</b>

For the past two years as a narrative report I gave a resume of notices served and complied with under the various Sections. These were split into categories of premise and then given as a total. Below the list is brought up to date, and is I think, self explanatory.

<i>Category of Premise</i>	<i>Notices c/fwd 1967</i>	<i>Notices served 1968</i>	<i>Notices complied 1968</i>	<i>C/fwd</i>
<b>Catering Establishments</b>				
Section 5 (Overcrowding) . . . . .	1	—	1	—
6 (Thermometer) . . . . .	1	—	1	—
10 (Washing facilities) . . . .	1	—	—	1
12 (Clothes storage) . . . . .	1	—	—	1
24 (First-Aid) . . . . .	1	1	2	—
50 (Abstract) . . . . .	1	—	1	1

<i>Category of Premise</i>		<i>Notices c/fwd 1967</i>	<i>Notices served 1968</i>	<i>Notices complied 1968</i>	<i>C/fwd</i>
<b>Shops</b>					
Section 4	(Clean fittings) . . . . .	3	—	3	—
6	(Thermometer) . . . . .	1	1	2	—
8	(Lighting) . . . . .	1	—	—	1
9	(San. conveniences) . . . .	3	—	—	3
10	(Washing facilities) . . . .	3	2	3	2
11	(Drinking water) . . . . .	1	—	1	1
12	(Clothes storage) . . . . .	1	—	—	1
16	(Handrail) . . . . .	1	—	—	1
24	(First-Aid) . . . . .	2	2	4	—
50	(Abstract) . . . . .	1	—	1	—
<b>Offices</b>					
Section 5	(Overcrowding) . . . . .	1	—	—	1
6	(Thermometer) . . . . .	1	1	1	—
8	(Lighting) . . . . .	1	—	—	1
9	(San. conveniences) . . . .	—	—	1	—
10	(Washing facilities) . . . .	—	1	1	—
24	(First-Aid) . . . . .	—	1	1	—
50	(Abstract) . . . . .	2	1	3	—
<b>Totals</b>					
Section 4	(Clean fittings) . . . . .	3	—	3	—
5	(Overcrowdings) . . . . .	2	—	1	1
6	(Thermometer) . . . . .	3	1	4	2
8	(Lighting) . . . . .	2	—	—	2
9	(San. conveniences) . . . .	2	—	2	3
10	(Washing facilities) . . . .	4	2	3	3
11	(Drinking water) . . . . .	1	—	1	1
12	(Clothes storage) . . . . .	2	—	—	2
16	(Handrail) . . . . .	1	—	—	1
24	(First-Aid) . . . . .	3	4	7	—
50	(Abstract) . . . . .	4	1	4	1

Compliance with Notices has on the whole been good, and efforts are being made to bring outstanding items up to date without recourse to statutory action. Only four new Notices were served during the year.

There was one accident reported during the year.

## ANIMAL BOARDING ESTABLISHMENT ACT 1963

This Act which came into force on the 1st January 1964 aimed at ensuring that suitable accommodation is provided and proper care given to pets whilst in the care of boarding establishments.

Such premises are licensed annually, and thirty-four visits were made during the year to the eight licensed premises.

**Pet Animals Act 1951**

Two licences are issued under this Act, and the premises visited to ensure suitability.

**PETROLEUM [REGULATIONS] ACTS 1928-1936**

All new tank installations are tested under pressure (10lb per square inch for 24 hours) in liaison with a representative of the company concerned.

Number of renewal licences . . . . .	149
Number of new licences issued . . . . .	—
Number of carbide licences issued . . . . .	1
